The above work is a delineation of the scenes and incidents connected with the imprisonment, in 1852 of Manuel Pereira, steward of the British brig Jan son, in the jail of Charleston, S. C.

The following notice of this work is copied from the National Bra of February 17:

"The above is the title of a work now in press, founded upon that infamous statute of South Carolina by which her citizens claim a right to imprison colored scaner, of all nations, and even those cast upon their shores in distress. We have perused the book in advance of its publication, and find that it gives a life-like picture of Pereira, the vessel in which he sailed, the storms she encountered, and her wrecked condition when brought into the port of Charleston, S. C.; to gether with the imprisonment of Pereira, several seamen belonging to the New England States, and two French scanner, the prison regimen, character of the Charleston police, and the mendacity of certain officials, who make the law a medium of peculation. The work is replete with incidents of Southern life and character, pointing Southerners to the things that call for correction at their own hands, with a force that cannot be mistaken. The work is written by one who has taken a prominent part in the affairs of the South, and cannot fail to interest alike the general reader, commercial man, and philanthropist."

By Jacob Abbott.

DEAUTIFULLY illustrated with original designs.

"Rollo on the Atlantic" is the first book of a scries to be published under the general title of Rollo's Tour in Europe.

Extract from the Preface:

"The books are intended to be books of instruction, rather than of mere amusement; and, in perusing them, the reader may feel assured that all the information which they contain, not only in respect to the countries visited, and to the customs, usages, and modes of life that are described, but also in regard to the general character of the incidents and advantures that the young travellers meet with, is in most strict accordance with fact. The main design of the narrative is thus the communication of useful knowledge; and everything which they contain, except what is strictly personal, in relation to the actors in the story, may be depended upon as exactly and scrupulously true."

my Watches in the United States of America.
April 18, 1883. CHARLES FRODSHAM.
The undersigned, having been appointed sole Agent in the United States for the sale of Charles Frodsham's Improved Timekeepers, would respectfully call public attention to his extensive and valuable stock of Compensated Chronometer Watches, made by Charles Frodsham, and styled his "New Series." In the Watches of the new series, Mr. Frodsham has succeeded—by a more perfect method of compensation, a more correct adjustment in isochronism, and an entirely new and peculiar construction of the train, by which more power is obtained without increase of size—in producing timekeepers of wonderful and univaled accuracy. The great importance of the improved Watches is a perfect regularity of time, under every variety of climate, motion, and position. So perfect are the adjustments, that the most violent exercise—such as horseback riding, jumping, &c.—produces on them no sensible effect. They are therefore peculiarly adapted to railroad purposes.

The scientific French critic, Mons. Borsendorf, in his review of the Great London Exhibition of 1851, styles the contribution of Mr. Charles Frodsham as "bearing the stamp of peculiar merit, and as being the flower of the English school."

The British Government have awarded Mesers. Arnold and Charles Frodsham the sum of £3,170, for the excellence of the principle of their timekeepers. One of Mr. Frodsham's correspondents writes as follows:

One of Mr. Frodsham's correspondents writes as follows:

London, April 26, 1852.

Sir: I have much pleasure in giving an account of the Gold Compensation Lever Watch, No. 3,325, you have made for me, and in which I expressly stipulated that it should maintain a uniform rate of going under every variety of motion and climate. This it has done in a most remarkable manner; its rate of going for the first six months was five seconds per month, and in the next six months it changed its rate a little faster, vix: eight seconds per month, and at the end of 365 days it was found to be fast of Greenwich mean time one minute and fifteen seconds. Though I was not led by any previous promise to expect such performance, yet I believe it is only the usual character of your improved watches, which you term your "new series."

I remain, sir. yours, respectfully,

Sir: I herewith give you an account of the remarkable performance of the watch I purchased of you, made by Charles Fredsham, No. 7,014. Its total variation for 17 months, by weekly observations, was but one minute and fifty five seconds.

Bos Ton, September 3, 1853.

The Compensated Lever Watch I purchased of you, made by Charles Fredsham, of London, No. 7,300, has varied but thirty seconds from mean time in six months, by actual daily comparison with your regulator. Yours, &c., ALVIN ADAMS.

Its Field.—Dealing with general principles, with arguments alike applicable to every community where the traffic exists, and with facts itustrative of those arguments and principles, the paper will be National in its spirit, in its scope, in its purpose, and, we trust, it will be Estional in its circulation and influence. Such is our aim and expectation. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognised policy of the Nation. It is our ambition to bear a part in this great work, and to this end The Prohibitions at part in this great work, and to this end The Prohibitions are its established, not as the organ of a society merely, but of a Great Repromators MOVEMENT.

CHORAL ADVOCATE

Is the cheapest and best Musical Paper in the world. This Journal, which has heretofore been published monthly, commences its fifth year in January next, and thenceforward it will be published every two weeks—on every other Thursday; thereby giving more than twice as much matter, without any increase in price. Each number contains sixteen quarto pages, four of which are new music, consisting of glees, hymn tunes, chants, anthems, dedication and holyday pieces, and, in short, every variety of music adapted to purposes of religious worship, to public occasions, and to the home circle; all of which will be of a practical character, and such as can be sung by persons of ordinary musical attainments. In the editorial department of the Review are engaged (in addition to Mr. Cady, the former editor) gentlemen of the highest talent and ripost musical experience, among whom are George F. Root, William B. Bradbury, Thomas Hastings, and Lowell Mason; and its circle of correspondence, home and foreign, is complete. PUBLISHERS' ANNOUNCEMENT! ELEVENTH VOLUME OF THE AMERICAN AGRICULTURIST

THE LEADING

Weekly Agricultural Paper of the Country.

THE AMERICAN AGRICULTURIST, a weekly
Periodical of sixteen large quarto pages, making
an annual volume of 832 pages of nearly double the
size of those in the first ten volumes of the Agricul-

turist.

It is beautifully printed with type cast expressly for it, and on the best of clear white paper, with wide margin, so that the numbers can be easily stitched or bound together.

A copions Index is weekly added, which will be fully amplified at the end of the year, for the bound work.

Comprehensive in its Character,

Each volume will contain all matter worth recording, which transpires either at home or abroad, and which can serve to instruct or interest the Farmer, the Planter, the Fruit-Grover, the Gardener, and the Stock Breeder; thus making it the most complete and useful Agricultural Publication of the day.

Correct and valuable Market Reports.

The Markets will be carefully reported, giving the actual transactions which take place from week to week, in Grain, Provisions, Cattle, &c.; thus keeping our readers constantly and reliably advised as to their interests. During the past year, the knowledge obtained from these Market Report alone has saved our readers thousands of dollars, by informing them of the best time to sell or purchase.

Such a Paper is demanded by the Farming Community.

Such a Paper is demanded by the Farming Community.

The publishers confidently believe that the agriculturists of this country are becoming too much awake to the demands of their own calling to be longer satisfied with the slow monthly issues of a paper professedly devoted to their interests, or to trust alone to the irresponsible extracts in a "farmer's column," so popular just now in papers chiefly devoted to business, polities, or literature; and they look for the united support of all the intelligent farmers of this country in their continued effort to furnish a weekly paper of a high and reliable character, which shall be progressive, and at the same time cautious and conservative in all its teachings.

Essentially an Agricultural Paper.

Essentially an Agricultural Paper.

The Agriculturist will not depart from its legitimate sphere to eatch popular favor by lumbering up its pages, with the silly, fictitious literature, and light, miscellaneous matter of the day; it has a higher sim; and a small part only of its space will be devoted to matters not immediately pertaining to the great business of Agriculture. The household as well as the out-door work of the farm will receive a due share of attention. The humbugs and nostrums aftent in the community will be tried by reliable scientific rates, and their worthlessness exposed. It is the aim of the publishers to keep this paper under the guidance of those who will make it a standard work, which shall communicate to its readers only that which is safe and reliable.

An Independent Journal.

that which is safe and reliable.

An Independent Journal.

The American Agriculturist stands upon its own merits; and the truthfulness, zeal, and ability, which it brings to the support of the interests of the farmer. It is untrammeled by any collateral business connections whatever, nor is it the organ of any clique, or the puffing machine of any man or thing. Thoroughly independent in all points, its ample pages are studiously given alone to the support and improvement of the great agriculturial class.

Editorial Department.

The American Agriculturist is under the editorial supervision of Mr. A. B. Allen, its principal editor for the past ten years, and Mr. Orange Judd, A. M., a thoroughly practical farmer and agricultural chemist.
